

# ∞ CEMA TIMES ∞

*Spring is here and summer is  
around the corner, don't blink!*

So far 2009 has proven very interesting, whether you're talking about the Chrysler situation, other car companies, our government, or the world!

Some things are just too big to worry about and you can't do much about them anyway so . . . I say get that project car, truck motorcycle done, cleaned up and get out and have some fun!

The show season is young and the cruise nights are underway. Let's hope that the weather cooperates, gas prices stay down and we will get a great season of car cruising in this year.

Do you have something going on, a project or hot spot you want to share with your fellow CEMA members? Send me the info and will get it in the newsletter or post it on the calendar.

Remember, the CEMA show is coming up shortly so get registered and let us know if you can help out, this our BIG event and what we do in the future depends a lot on this going well once again.

*Marc*

**CEMA Club Volunteers for Bearing Burners Car show May 3, 2009 at the GM Tech Center**

Like many club events, volunteers make a difference. We were contacted by the Bearing Burners Club asking if we could ask our membership if they would be willing to help with some of the tasks similar to what we do. They have had members at our shows in the past and have been very impressed with how our show is run and the number of volunteers. The request was sent out to the CEMA membership and 8 CEMA members stepped up and we even got one of the North Oakland Mopar Muscle members Bob Metzger to help! Most worked the morning shift assisting with traffic and parking while 2 of us assisted with the judging.

Doug Wetli and I enjoyed the show and swap meet early and helped with judging in the afternoon. Nice system they use and we really enjoyed doing it. The morning crew consisted of Lou Belli, Glenn Forshee, George Stajniak, David Green, Tim Leslie and Gene Steele. Gene lives 25 miles south of Toledo and came all the way up just to help out. He even brought along his 34 Ford he uses to push start sprint cars and modifieds back home during the races. He just wanted to show it off but ended up getting an award in his class! Lou, Glenn, Bob and myself took home awards along with Gene so we did real good as a club.

Our very own CEMA member Jammin' Jerry was spinning the tunes and taking care of announcements.

Chris and Chuck Alaniz looking for all important parts

Jim and Pam Kemichik's sharp 1979 Dodge Aspen R/T

Mike Mordarski's clean 1970 Plymouth GTX
